# IN THE MARKET

Trading in Wall Street Listless and the Price Movement Narrow in the Extreme.

### OPERATIONS OF THE WEEK

DEMAND NOT SUFFICIENT TO BOOST PRICES.

New York, March 24.-There was very slight interest shown in today's stock market. Trading was listless and the N. Y. O. & W market. Trading was listless and the price movement was very narrow with no well-defined tendency. Reading was irregular with fluctuations ranging to a point below last night, followed to a less extent by the general list. The market lacked the stimulating influence which came from Reading's strong advance vesterday and was inclined to which came from Reading's strong at vance yesterday and was inclined to sag. Last prices of the week in the majority of active stocks are not materially altered from those of last Satterlally altered those have been considered. urday, although there have been considerable fluctuations during the week.

The evident disposition to return to a fixed level is thus demonstrated, confirming the conclusion as to the almost of the conclusion as to the conclusion as to the conclusion as th exclusively professional nature of the st

The bank statement showed no changes sufficient to alter the uncertain feeling over the money outlook. The slight recuperation in the banking Preferred So. Railway Preferred So position offers small margin for the acaufrements for the April 1 settlements. Bank clearings for the country as a whole again show a slight contraction for the week compared with last year, the decrease being more than accounted for by New York City clearings. The total sales of stocks for the six business days ending Friday, numbered 3.-621.498 shares, which is only about half the sales in the corresponding week of last year. The par value of \$10,731,000 bonds sold in the same period also represents only half the volume in the last year's period. The decline in bank clearings is thus closely associated with the subsidence of circulation.

Preferred .... Wis. Central the subsidence of circulation.

the subsidence of circulation.

Outside of the seven principal cities the week's clearings show a large increase over those of last year. There crease over those of last year. There crease over those of last year. Schloss Sheff to indicate any change in the money and exchange situation. The stock market closed intensely dull and irreg-Total sales of bonds, par value, \$1,-

Total sales of bonds, par value, \$1,-075,000.

The Week's Operations.

Operations in the stock market during the week have been small and unimportant and the movement of prices was exceedingly irregular. Business

Business was in the hands of the smaller class of professionals and the market has demonstrated the futility of such operations to effect any abstract of the smaller class of professionals and the market has do adjit 4s ... Atlantic C L 4s. ations to effect any substantial alteration in the level of values.

B & O 4s

do 3½s.

The factors holding the market in restraint were much the same as for some time past. The few development of the factors holding the market in restraint were much the same as for some do 1st inc. straint were much the same as for some time past. The few developments affecting these conditions were not sufficient to remove existing doubts, and there was a continued paralysis of any effective demand. The market was free, however, from any urgent liquidation. The consequence was the constant tendency of prices to return to a fixed level. Money rates have been little changed during the week, but the light demand for funds for speculative purposes is believed to be responsible for this in part. The engagement of gold in Berlin for export to New York, supplementing the previous small engagements in London, has been of small influence on stock market sentiment. The religion of the state of the sta fluence on stock market sentiment. The ruling prices of exchange failed to ex-plain flow any profit could be afforded on the transaction as a purely exchange operation, and the belief that conditions were forced to effect it deprived it of a beneficial effect on sentiment. The reception accorded the news of the intended issue of \$100,000,000 new

New York Central stock indicated another factor in the conservatism of the market. The enormous new capital issues since the first of the year have been much discussed in Wall street as threatening a possible glut of new se-curities. Most of these new issues hitheffect has been perceptible in the bond market. This market is slow and bond dealers complain of a lethargic demand for old issues owing to the displacement of demand by the newer candidates for the same effect is feared in the largest trolytic, \$18.25@18.50, and casting at \$18.00@ 18.25. stock department as a consequence of so large an addition, although assurances are given that the intended new issue will be offered in moderate in-stallments and at considerable intervals of time, with privilege to stockholders subscribe at par, constituting valuable rights at the existing market price

for the stock. The bond market has been dull and United States new 4s advanced ½ per cent on call during the week.

### GRAIN AND PROVISIONS.

Chicago, March 24.—Trading in the wheat pit was very light and during the greater part of the session sentiment was inclined to bearishness. Owing to failure of Liverpool wheat market to respond to the strength in the local wheat market yesterday there was a moderate decline at the start, the May option being off 1/62/4 at 78%/67834. Toward the end of the first hour there was a slight relly following a sharp advance at Minneapolis, the strength of the northwestern market being due to decreasing stocks and a lively demand for cash wheat. For the May delivery the high point of the day was reached at 78%. During the last hour there was moderate liquidation by local longs and as a result the market became quite weak. The close was at the lowest point of the day, final quotations on May being off 1/2 cent at 78%. Selling by cash interests and commis-

Selling by cash interests and commission houses caused weakness in the corn market. The market closed weak at the lowest point of the day, May ½ cent down

lowest point of the day, May 72 count at 44.

Trading in oats was exceedingly dull and prices ranged within narrow limits. May closed 1604 off at 30%.

Owing to a 5 cent decline in the price of live hogs there was considerable profittaking in provisions. At the close May pork was off 15 cents, lard was down 10 and ribs were 12½ cents lower.

The reading furures ranged as follows:

Mining Notes.

Clarence K. McCornick is expected back from the east during the next few hours. Fourteen cars of ore from Tintic, four from Bingham and four from Nevada were released from the Taylor & Brunton sampler yesterday. A. V. Taylor, local representative of the Pittsburg-Utah Oil company, has re-turned from a several weeks' trip to company headquarters.

H. S. Joseph went down to the Good Springs district, Nevada, Friday night to make an inspection of the Chiquita com-pany's Hoosier lead property. Five cars of ore from Nevada, two from Stockton, two from Bingham and one from Tintic were reported at the Pio-

neer sampler yesterday morning. Simon Bamberger, general manager of the Bamberger-DeLamar properties, has returned from a brief trip to camp well pleased with the manner in which everything is moving.

A message over the Pollock private wires yesterday brought the information that the Guggenheim had secured an option on the Giroux Consolidated properties at Ely, Nev. James W. Neill, consulting engineer of the East Butte, who has been in the ing leaves ty several days, leaves for the north invited.

again today. He wil remain at the properties until the arrival of the Paine party from Arizona and later go on to New York, where he has personal business to transact.

The Yankee Consolidated company has struck a good flow of water in the well it has been putting down at Homansville, Tintic, at a depth of thirty feet. If the flow proves permanent it will not be necessary to go any deeper for water with which to operate the new milling plant which is to be erected this spring.

Advices have reached the city that A Advices have reached the city that A.
F. Holden, managing director of the
United States company, will probably
reach this city tomorrow. It is also
thought that he will be accompanied by
W. G. Sharp, who was recently elected
president of the company. It is several
months since Mr. Holden was last here.

### When You're Fixing Floors

This spring let us talk to you of the kind of finish to use. Pratt & Lambert's No. 61 Floor Finish is recognized among painters as the standard. It takes a polish like s piano. Ask about it.
